

Dear Webmaster,

I have been visiting both the mobile and desktop versions of your Align Life Ministries website. I notice the flyout menus (3 bars) on the mobile website do not work correctly in that the submenus are not displayed and the page does not change except that the "Get Involved" page but that selection should be showing a submenu instead of going directly to the page.

Below is the portion of the mobile website source code which has errors that should be corrected for the menus to work correctly. Each section below has two hyperlinks, one which is hidden except for troubleshooting and the second which is shown in the flyout menu. The second link in each should have the same after the "href=" as the first one instead of "href=#"

ie. `` instead of ``.

The second link for "Get Involved" section should be `` instead of ``

```
