

RX1 Scout

Miele's first robot vacuum

Features:

- Front-mounted sensors avoid most collisions by turning before contact
- Always knows the location of the recharging station and returns to it
- Recharges if needed then continues
- Systematically navigates the area to be cleaned, remembering uncleaned areas and returning to clean them
- Time can be set to clean while away
- Height of 3.5" enables cleaning under most beds, sofas, and other low areas
- Can clean in dark or dimly lit areas
- Senses stairs or drop-offs and turns
- Able to 'climb' a height difference of up to 3/4" going onto a carpeted floor
- Brush is easily removed to clean it

Smart Navigation - Systematic Navigation Plus

- Gyro Sensor: measures Scout's movement
- 7 anti-collision sensors
- Ceiling camera
- Advanced corner cleaning

Non-Stop Power

- Up to 2 hours of continuous cleaning before recharging
- 1600 square feet

Triple Cleaning System

- Two rotating side brushes
- Effective Revolving Brush
- High efficiency suction system

4+1 Cleaning Modes:

Auto Mode

Cleans all rooms and returns to base – up to 1,600 square feet

Corner Mode

Auto Mode then cleans all corners and returns to base

Spot Mode

6 square feet

Turbo Mode

Clean 50% faster (wider gap between lines) and returns to base

Remote Control

Ristenbatt Vacuum has been helping to keep homes clean for over 57 years.
